## **EXPLORING DINOSAURS**

The American Museum of Natural History presents Dino Zone, an educational resource for these fascinating ancient creatures.

At Dino Zone, you can learn about your favorite dinosaur, then plan to visit the museum to see their fossils in person.

Together, the two halls of the Koch Dinosaur Wing at the American Museum of Natural History feature nearly 100 specimens, most of them fossils, rather than casts.

By visiting Dino Zone, you can learn additional facts about how these creatures lived, what they ate, and how scientists think they may have looked.

## **ABOUT THE MUSEUM**

The American Museum of Natural History is one of the world's most renowned scientific and cultural institutions. Since its founding in 1869, the Museum has advanced its global mission to discover, interpret, and share knowledge about human cultures, the natural world, and the universe.
